

How to Install VMWare View Client

To Install the Client

1. Go to the url <https://view.bethesdahealthcare.com/>.
Click on Install VMWare Horizon View Client

2. Click on "Go to Downloads" based on your version of OS.
(Most users have Windows 32 Bit Clients)

3. Click "Download Now" on the bottom right corner

4. On Windows 7, you should see the following, choose run.

On Windows XP, you should see the following, choose "run".

5. Click Next

6. Select "I accept..." and click "Next"

7. Click Next

8. Type "view.bethesdahealthcare.com" and click "Next"

9. Click Next

10. Click Next

11. Click to Install and Wait until complete...

12. Click "Finish"

13. Click yes to reboot your PC.

14. Find the newly created VMware View Client shortcut on your desktop and double click

15. Click on Options

16. Click "Configure SSL..."

17. Choose "Do not verify server identity certificates" and click "ok"

18. Click "Connect"

19. Click on your desktop and click "Connect" and Wait while VMware connects to your desktop.

20. You will then be logged into your assigned pool and logged into your desktop.
